## *Website*

The website is up and running. I would ask that everyone go to [getholy.com](http://getholy.com) and take a look at it. You will need to register. When you do you will get an error. I do not know why yet, but you are registered and you may sign in.

After you register, please email me at [fr@getholy.com](mailto:fr@getholy.com) with your user name so that I can upgrade you to parishioner status. That will give you full access to the website. The one feature that no one has access to unless I register them as a parishioner is the parish directory. This way your personal information is as safe as I can keep it and still give you access to it.

The site is not in its final form yet, but it is working and that is more important to me right now.

One of the new features will be that when I need to get you emergency information, at the top of the page there will be a news alert. I can turn this feature on and off with the click of one button and it is easy to change the text to what I need.

## *Remodeling*

All the new features are now in place. We have to finish them with trim, a few adjustment, stain and polyurethane. So this is basically the new chapel. I hope you like it. It has been a lot of work, but at the same time it was a labor of love.

I want to thank everyone who contributed ideas and who helped with the physical labor to make it happen. Thank you to all who contributed funds to make it happen. Your generosity is greatly appreciated. And lastly, thank you for all your prayers and support.

My hope is that this more reverent and dignified look will aid us in our worship of our God.

It is truly a joy for me to be here with you and you are in my prayers every day. I love you and I know the great blessing God has given me by letting me be a part of your life.
